GENERAL INFORMATION

The Federal Aviation Act provided for issuance of dealer's aircraft registration certificates to be used as an alternative for the certificate of aircraft registration. This form identifies the applicant as a person engaged in the business of manufacturing, distributing, or selling aircraft. The signature certifies U.S. citizenship as required by the Act. Incomplete submission will prevent or delay issuance of dealer's aircraft registration certificates.

1. A citizen of the United States means (a) an individual who is a citizen of the United States; or (b) a partnership each of whose partners is an individual who is a citizen of the United States; or (c) a corporation or association organized under the laws of the United States or a State, the District of Columbia, or a Territory or possession of the United States, of which the president and at least two-thirds of the board of directors and other managing officers are citizens of the United States, and in which at least 75 percent of the voting interest is owned or controlled by persons that are citizens of the United States. Title 49 United States Code 40102(a)(15).

2. Before operating an aircraft he owns while using his dealer's aircraft registration certificate, the holder of the certificate (other than a manufacturer) must send to the Civil Aviation Registry evidence satisfactory to the Administrator that he is the owner of the aircraft. (Limitations may be found in Section 47.69 of the Federal Aviation Regulations.)

3. A Dealer's Aircraft Registration Certificate expires one year after the date on which it was issued. All additional certificates expire on the date of expiration of the original certificate.

4. The fee for a Dealer's Aircraft Registration Certificate is $10 and $2 for each additional Dealer's Aircraft Registration Certificate issued to the same dealer.
